JL.Sunan Giri No.94 Kel.Simpang III Sipin Kec. Kota Baru

Data Science student with nearly two years of experience in teaching and mentoring data-related subjects. Passionate about making complex topics accessible through workshops, tutoring, and programming assistance. Proficient in SQL, Python, and data visualization tools, with hands-on experience in machine learning and statistical analysis. Adept at coordinating academic events and fostering collaborative learning environments.

Personal Data

Place / Date of Birth : Jambi, April 12 2004
Gender / Status : Man / Single
Religion / Nationality : Islam / WNI
Height / Weight : 173 cm / 75 kg

Education

Telkom University Purwokerto, Data Science, Faculty Of Informatics 2022 - Present
State Islamic Senior High School Insan Cendekia Jambi, Natural Science 2019 - 2022

Experience

Python Automation Intern

RSUD Dr. (H.C.) Ir. Soekarno Bangka Belitung June 2025 – August 2025

- Developed Python automation scripts to validate and verify BPJS claim data, reducing manual checking time and increasing data accuracy.
- Built automated modules to support the DPJP (Dokter Penanggung Jawab Pelayanan) workflow, including data validation and assignment consistency checks.
- Collaborated with the IT and administrative teams to optimize SIMRS (Hospital Information System) data processing pipelines.
- Supported the hospital's digital transformation and data governance initiatives by implementing automation workflows to improve operational efficiency.

Himpunan Mahasiswa Sains Data (HMSD)

Telkom University Purwokerto

Head of Research and Innovation Division

August 2024 – January 2025

- Leading the Research and Innovation Division, overseeing program planning and execution.
- Managing team coordination by assigning responsible leads for specific initiatives.

Program Coordinator | Machine Learning Competition (MLC)

December 2024 – January 2025

- Organizing a Kaggle-based competition with 254 teams, providing hands-on ML experience.
- Coordinating final presentations to showcase problem-solving and innovation.

Program Coordinator | AI & Data Science Events

October 2024 – November 2024

- Hosting Webinar ATLANTICS on Generative AI & ChatGPT with 138+ participants.
- Managing Data Science Explorers (DICE) learning community with 20+ participants per session.

Instructor | HMSD Tech Service (HTS)

October 2024

- Conducting workshops on Exploratory Data Analysis (EDA) and data visualization for high school students.
- Introducing 31 students to basic data science concepts and their real-world applications.

Bangkit Academy led by Google, Tokopedia, Gojek & Traveloka

Machine Learning Cohort

Sept 2024 – Jan 2025

- Completed an intensive independent study in machine learning and data science.
- Gained expertise in Python automation, TensorFlow, Generative AI, and ML project deployment.

Project Research
Telkom University Purwokerto

TUKUPOS Sales Analysis September 2024-Desember 2024

- Conducted sales data analysis for MSMEs using data from the TUKUPOS app to support local businesses in Purbalingga in managing finances and sales digitally.
- Identified sales trends and seasonal patterns through time series analysis to optimize marketing and operational strategies.
- Developed stock management and production capacity strategies based on high and low sales seasons.
- Applied Apriori Market Basket Analysis to discover product association patterns, enabling efficient shelf arrangement and product bundling strategies to boost sales.
- Provided strategic insights for MSMEs to increase sales through promotions, discounts, and customer loyalty programs.
- Recommended inventory management improvements and process automation to enhance operational efficiency.

Superprof January 2024 – November 2024
Private Tutor

- Providing personalized tutoring sessions for one elementary school student to prepare for math olympiads.
- Assisting the student in understanding mathematical concepts required for competitions, including topics such as integers, fractions, basic geometry, and simple algebra.
- Teaching problem-solving strategies and effective solution techniques through intensive practice and case studies.

Assistant Lecturer | Statistics Methods 2 February 2024 – June 2024
Telkom University Purwokerto

- Guiding 36 students in understanding statistical concepts related to these applications.
- Providing practical demonstrations on how to use statistical software.

Assistant Lecturer | R Programming September 2023 – January 2024
Telkom University Purwokerto

- Taught R programming fundamentals, including data visualization and random number generation techniques.
- Assisted 30+ students in writing and debugging R scripts for statistical analysis.

Field Security Staff | DINAMIKA 4.0 Anniversary Event October 2023 – January 2024
Telkom University Purwokerto

- Played a crucial role as a member of the field security division for DINAMIKA 4.0, the anniversary event of the Data Science major.
- Assisted in planning and executing security measures to ensure the safety and well-being of attendees, performers, and staff throughout the event.
- Coordinated with venue security personnel and event organizers to implement comprehensive security protocols, including crowd control strategies and emergency response plans.

PT Bank Muamalat Indonesia Tbk August 2023 – September 2023
Virtual Intern – Business Intelligence Analyst

- Gained hands-on experience in SQL operations, Excel data processing, and BI tools (Power BI & Tableau).
- Developed interactive dashboards to aid data-driven decision-making.

Certificate

- Building Customer Churn Analytics For Subscription Business Pacmann Issued Jul 2023
- Data Science With Python Habiskerja.com Issued Jul 2023 · Expires Jan 2028
- Credential ID 02415/DS/2023
- Microsoft Excel MySkill Issued Jul 2023
 - Credential ID MS-14/7/2023-dH9JnV9sgm3ofkzW0fQR

Ability

Skilled in teaching and mentoring, with a talent for simplifying complex topics for various learning levels. Strong communication and leadership abilities are demonstrated through academic seminars, competitions, and student-led programs. Adept at problem-solving and critical thinking, developing effective learning strategies. Passionate about collaboration and fostering supportive learning environments.

Skills

Skilled In Using Software Like R, Python, And SPSS To Create Predictive Models, Visualize Data, And Extract Meaningful Insights From Intricate Datasets. I Have A Deep Understanding Of Statistical Principles, Such As Regression, Hypothesis Testing, And Multivariate Analysis, Which Allows Me To Efficiently Design And Interpret

- Python
- Machine Learning
- EViews

- Statistic & Mathematics
- SQL
- R Software

- Looker Studio
- Tableau
- Excel
